ISHAAN BHIDE

SOFTWARE ENGINEERING STUDENT

I am a full-time second year Bachelor of Software Engineering (Honours) student at The University of Auckland. I love to tackle challenges and strive for creativity and perfection in every task. Through past experiences in leadership roles, I have become a confident public-speaker and an approachable communicator adaptable to any work environment. I am currently seeking an internship position where I can apply my knowledge on a practical application while also enhancing my software engineering skillset.

EDUCATION

The University of Auckland

2020 - Present

- Awarded Top Achiever Scholarship valued at \$20,000 (2020)
- Dean's Honours List (2020)

Lynfield College

2015 - 2019

- Excellence Endorsement in NCEA Level 1, Level 2, and Level 3 (2017-2019)
- First in Geography (2018, 2019)
- Lynfield College Sports Scholarship (2019)
- Speech Competition Winner (2018)

WORK EXPERIENCE

Engineering Intern at Access Control LTD (Part time) | Nov 2020 to Feb 2021

- Learnt React JS and the fundamentals of functional programming.
- Managed Access Control LTD's two websites including website design and editing / adding new products.
- Customer service.

Academic Tutor at MyTuition (Casual) | April 2020 to Present

The subjects I tutor are Maths, Physics, Geography, Programming and Design, and Earth and Space Science across all NCEA levels.

Freelance Filmmaker, Photographer and Graphic Designer (Casual) | Jan 2018 to Present

Since 2018, I have been making several videos for clients including promotional videos and wedding/anniversary/birthday highlights. Alongside filmmaking and photography, I also design promotional posters and vouchers for clients.

PROJECTS

Personal Portfolio Website (July 2021)

Single page portfolio website with a dynamic menu and separate sections to display my personal information and future projects.

- Made using React JS, HTML and CSS.

Facebook Clone (June 2021)

Web app that looks identical to Facebook. User registration using google authentication and information saved using Firebase. Web app supports posting text and images.

- Made using React JS, HTML and CSS.

Shortest Path Program (June 2021)

Java program that can find nodes or edges in a digraph using DFS and BFS, and computes the shortest path from a given source to the destination node.
