# ISHAAN BHIDE

**SOFTWARE ENGINEERING STUDENT**

Hardworking, organised, and friendly, I am a full-time second year Bachelor of Software Engineering (Honours) student at The University of Auckland. I love to tackle challenges and strive for creativity and perfection in every task I come across. Through past experiences in leadership roles, I have become a confident public-speaker and an approachable communicator adaptable to any work environment. I am currently looking for an internship position where I can apply my knowledge on a practical application while also enhancing my software engineering skillset.

## EDUCATION

**Lynfield College**

2015 - 2019

- Excellence Endorsement in NCEA Level 1, Level 2 and Level 3 (2017-2019)
- First in Geography (2018, 2019)
- Lynfield College Sports Scholarship (2019)
- Speech Competition Winner (2018)

**The University of Auckland**

2020 -

- Awarded Top Achiever Scholarship valued at $20,000 (2020)
- Dean's Honours List (2020)

## WORK EXPERIENCE

**Engineering Intern at Access Control LTD (Part time) | Nov 2020 to Feb 2021**

As an intern, I learnt React JS and the fundamentals of functional programming. I also managed Access Control LTD's two websites (gateautomation.co.nz and batteryworx.co.nz). My website work entailed adjusting the website's overall design (colours, navigation, front page, shopping cart) and adding/editing products on the website (this included taking professional photos of the products.

**Tutor at MyTuition (Casual) | April 2020 to Present**

I work as a tutor under MyTuition. The subjects I offer are NCEA Maths, Physics, Geography, Programming and Design, and Earth and Space Science across all levels.

**Freelance Filmmaker, Photographer and Graphic Designer (Casual) | Jan 2018 to Present**

Since 2018, I have been making several videos for clients including promotional videos and wedding/anniversary/birthday highlights. I have also taken photos for special events. Along with filmmaking and photography, I have also designed numerous promotional posters and vouchers for several clients.

## PROJECTS

**Facebook Clone (July 2021)**
- Web app that looks identical to Facebook. User registration using google authentication and information saved using Firebase. Web app supports posting text and images.
- Made using React, HTML and CSS.

**Shortest Path Program (June 2021)**
- Java program that can find nodes or edges in a digraph using DFS and BFS, and computes the shortest path from a given source to the destination node.
